

CASE STUDY

Neev Systems implemented Oracle Fusion Cloud to help Duraflame achieve streamlined, reliable, and scalable business processes

Client
Duraflame Inc.

Location
Henderson, US

Industry
Manufacturing

About the Client

Duraflame is America's firelog brand leader, offering a wide variety of fire-related products, including firelogs, firestarters, and barbecue products. For 50 years, the duraflame® brand has proven its leadership in the fireplace fuel category and its commitment to millions of loyal customers. We consistently deliver innovative products that meet the highest quality, convenience, reliability, and environmental sustainability standards.

Challenges

Before engaging with Neev Systems, Duraflame Inc. availed services from different companies for each service line. This caused a major challenge for Duraflame Inc. with respect to communication, delivery, cost, and customer expectations.

Solutions

To address the challenges faced by Duraflame Inc., Neev Systems implemented the following solution:

- ▶ Provided support services for Oracle Fusion Cloud, Middleware, and custom applications.
- ▶ Implementation of Oracle Cloud FIN, SCM, MFG, Planning, CPQ, FAW, and PBCS
- ▶ Integrations with Custom MW Java Applications, Banks, and EDI Systems
- ▶ Automation in Path Validation

Applications/Technologies Used:

ORACLE
CLOUD

Benefits

- ▶ Replaced manual processes and controls with an automated and integrated process.
- ▶ Streamlined, reliable, and scalable processes.

Approach and Methodology

Neev follows Agile methodology and with dynamic and symbiotic approach which ensures apt, timely and out of the box solutions. Neev delivers value with Domain Knowledge, Managed Services, SLA and Metrics, Automation testing and process focus.

About Neev Systems
